

Kevin Won

SUMMARY

I am a multi-disciplinary professional with an educational background in History and Arts. Professionally diverse upbringing with experience in retail management, accountants support, HVAC technician, corporate planning, restaurants: back and front-end. Below are listed only those most relevant to the field I am now working to break in: Front-end development/software development.

Portfolio website Design — www.kevinwonart.com

- My own personal web page used to show case my art and a public resume/cv. Developed using HTML/CSS/JS.

Kroger, Katy, TX — Assistant Grocery Dept. Lead

Nov 2022 – Current

- Moved from associate to supervisor within 3 month.
- I supervised a team of 8+ employees in stocking and organizing shelves and displays to maintain optimal product availability and presentation.
- I managed inventory levels and ensure accurate stock counts through regular audits, backroom count, and top stock count and maintaining an accuracy of at least 75% of over 5 million USD of inventory and over 1500 unique items.
- I saved my store over \$250,000 worth of inventory during a black out by responding to a emergency.
- Well versed in retail operations including inventory control, order management, scheduling and customer service.

Samsung SDSA, Plano, TX — Billing Technical Analyst

Sept 2018 - June 2020

- I proposed and helped develop reporting tools that identify billing statuses for logistic invoice remittance using internal RPA software and VBA saving my department over 300 hours a quarter
- Process and ensure accuracy for both AR and AP invoices using three different databases.
- Communicated daily with LSP's Receivable department to ensure billing procedures are optimal, streamlined and accurate with internal accounts payable processes.
- Audit voucher and invoice using programmatic methods in Excel to ensure accuracy.

LG, Fort Worth, TX—Business Technical Planning Analyst

JAN 2016 -AUG 2018

- Create Business reports on labor cost and repair times from GERP databases
- Maintain credit/invoice reconciliation regarding smart phone RMA between LG's AR team and ASC vendors. Up to 200 phones a week at an average \$500 unit price
- Develop Visual Basic Programs to automate Excel budgeting and labor costs reports

EDUCATION

University of Texas, Austin — B.A. History
